

## Speaking Personally...

**B. K. Dalan**  
*Secretary*

**L**earning is not a process that ends with the conclusion of one's school career. It is indeed a lifelong process. In an era of competition, success can only be achieved if one makes the right kind of effort at the right time. India is one of the few countries in the world that is blessed with rich cultural heritage, highly hard working pool of young people seeking new knowledge and education to raise India's stature to the top economies in the world. We, the members of Sarala Birla family, consistently give our young wards the proper orientation to become the successful, dynamic citizens of tomorrow. So, we focus on multidisciplinary way of teaching as education is the tool which helps us in removing all our doubts and fears about all the challenges.

**Pradip Varma**  
*Head, Personnel & Admin.*

**A**s we know school is the miniature of society: hence we, at SBPS teach children the importance of tolerance. It is their preparatory stage for entering public life and respecting each other's culture. Discipline, values and integrity are the foundation of this school. We respect the individuality of the students and help them develop inter and intra personal skill because we strongly believe in the theory of 'multiple intelligence'. Our pedagogy is child – centric with emphasis on inquiry and project-based learning. We focus not only on scholastic and co-scholastic but also on development of skills. Communication is one of the most important skills for a person so our school promotes multilingualism to satisfy the prolific mind. Development of scientific knowledge, critical analysis & rationalism fulfils the desire of inquisitive minds. We aim to provide an education which explores and strengthens the potential which is innate in every individual but awaiting expression.

**“E**ducation is the passport to the future, for tomorrow belongs to those who prepare for it today.”

Dear Parents,

Welcome to the first newsletter of the academic session 2018-19. I am glad to announce that the students of Sarala Birla Public School are constantly bringing laurels & accolades to the school. Here, in SBPS, we believe to 'Aspire, Believe and Achieve'. This is leading to constant growth of the institution through combined efforts of the management, staff, teachers, students & parents. We constantly endeavour to impart 'value education' through various means. We invoke quest among the students to thrive for the best in various disciplines as constant hard work leads to success. We motivate the children to reach the zone of proximal development where the teacher scaffolds them. That is why great emphasis is paid on constructivism, learning by doing and experiential learning. We strongly believe to develop a passion for learning so that the students are eager to quench their thirst for knowledge.

India is an empowered, enlightened and enterprising nation. We wish to make it even more powerful with conscientious, smart and confident citizens by facilitating multifaceted growth. I am sure our efforts are fruitful in this direction and we set a benchmark in the field of education where knowledge will not only be of facts but of values.

*It is verily articulated, "In order to achieve accomplishments, one must first accomplish determination."*
